

Remarks

The Applicant notes the observation that the Response to the previous Office Action is non-responsive with respect to Claims 20, 22, 25 and 26 under 35 U.S.C. §112, first paragraph. The Applicant believes that the issues were indeed addressed in the last Response. Nonetheless, for the sake of accelerating prosecution, the Applicant has amended Claim 20 to remove "and/or diseases generated from non conventional transmissible agents." This amendment to Claim 20 should remove any doubt as to whether that claim has been fully addressed with respect to the issues under §112 as being completely addressed.

The additional comments are not understood as they would hypothetically apply to Claim 22 inasmuch as that claim does not include such language. The Applicant accordingly believes that Claim 22 is fully in compliance with §112.

Claims 25 and 26 are also fully in compliance if for no other reason that they are dependent on Claim 20 which has been fully addressed above.

In light of the foregoing, the Applicant respectfully submits that the entire application is now in condition for allowance, which is respectfully requested.

Respectfully submitted,

T. Daniel Christenbury
Reg. No. 31,750
Attorney for Applicant
